How Canadians Polled on CNA’s Election Platform*

**SUPPORT FOR CAREGIVERS**
- 1 in 6 are caregivers
- 4 in 10 have trouble affording necessary medical care
- 3 out of 4 want the tax credit to be converted into a direct payment
- 33% claimed the Canada caregiver credit
- 57% believe the 3-day bereavement period should be increased

**PRESCRIPTION MEDICATION ACCESS**
- Households earning $50,000 or less have the greatest financial stress paying for prescription medications
- 38% Employer (partial or full)
- 28% Government
- 16% Out-of-pocket
- 14% Private insurance
- 4% Someone else in household
- 6 in 10 taking prescription medication

**TECHNOLOGICAL INNOVATIONS**
- 1 in 6 prefer online consultations for health advice instead of phone and in-person appointments
- 54% had to wait an unreasonable amount of time for a non-emergency medical or treatment appointment

**CLIMATE CHANGE**
- 6 in 10 believe that climate change has a negative impact on their health
- 86% unaware that the government of Canada offers resources about climate change and health

* The findings on this page are the results of a Vector Research poll commissioned by CNA. 1,001 responses were received June 5-12, 2019.
